West Bountiful, UT 84087  
CERTIFIED MAIL/RETURN RECEIPT REQUESTED

**NOTICE OF NONCOMPLIANCE**

Dear Mr. Bown:

This letter is to document and give you written notice that your operations at the Dove Creek Quarry of the Raft River Division, Sawtooth National Forest are in noncompliance of Federal Regulations in 36CFR228, requirements for environmental protection. This letter is based on an inspection of the site on June 21, 2005.

The inspectors found that 1.06 acres of new unauthorized quarry and waste rock expansion and disturbance has been created on Forest Service managed lands at the Main Quarry. The inspectors also found that topsoil in the new disturbance had not been salvaged and had as a result been buried under waste rock. An additional .06 acres of unauthorized new road disturbance at the Main Quarry was also found.

RECEIVED

JUL 15 2005

DIV. OF OIL, GAS & MINING

Caring for the Land and Serving People

Printed on Recycled Paper

Because this new disturbance is outside of the approved plan of operations, you are in noncompliance with 36CFR228.5(a) Subpart(a):

“Operations shall be conducted in accordance with the approved plan of operations, except as provided in paragraph (b) of this section and in 228.4 (a), (b), and (e).”

Within 30 days of receipt of this letter you must submit to this office a revised operating and reclamation plan that details reclamation of the new disturbance. This reclamation plan must also detail the method by which topsoil will be brought onto the site to makeup for the original topsoil that has been buried by the unauthorized expansion. Additionally, within 30 days of receipt of this letter, the reclamation bond for this project must be increased to cover the new disturbance.

The inspectors also noted that a portion of the Clark's Basin Road had been significantly upgraded by the addition of waste rock to the road surface. The Forest Surface currently has an easement on a portion of this road. Any improvements to this section of road will need the prior approval of the Forest Service.

This decision is appealable in accordance with Secretary of Agriculture Appeal Regulation 36CFR251, Subpart C. A notice of appeal must be filed with the Forest Supervisor, Sawtooth National Forest, 2647 Kimberly Road East, Twin Falls, Idaho, 83301-7976 within 45 days of the date of this decision with a copy simultaneously sent to the District Ranger, Minidoka District, Sawtooth National Forest, 3650 South Overland Avenue, Burley, Idaho, 83318. The notice of appeal must also include the information described in 36CFR251.90(b). There are eight items listed that the appellant must address.

We are willing to meet with you to discuss any concerns or issues related to this decision. Our telephone number is (208) 678-0430.

If you have any questions or comments, please contact Steve Flock, Minerals Management Specialist, at the above address or telephone number.

Sincerely,

SCOTT C. NANNENGA  
Minidoka District Ranger
